Subject: The FOIA OCSPP IO Table for Tomorrow's Meeting

Importance: High

Hi Carolann, I had Tracey organize them so that the three that already have relativity workspaces are on top and I included data on how many records are in each. Then I ordered them somewhat by my own sense of prioritization : 1) NGOs that typically don't withdraw their interest; 2) press (in no particular order, however the news story may be old at this point, especially the first one which is mainly about NB) and 3) the DNC, who again I feel may have lost their interest given the election. I am ready to talk about this table and about what Derrick and Maddy can do for us as well as the issue of the timing involved in setting up more workspaces. Let me know if there is anything else that you think is needed for or prior to the meeting.
